Community Recycling Options

Many items are recyclable, but don't belong in the garbage or in your curbside recycling cart. Here are some recycling options for a variety of materials.

WHAT DO I DO WITH...

Motor Oil

Put in tightly closed 1 gallon milk jugs and take to a hazardous waste station.

Snohomish County transfer stations

- www.snohomishcountywa.gov
Search "transfer stations" for locations and quantity limitations.

Latex Paint

Latex paint is no longer considered hazardous waste. It can be placed in your garbage if it is solidified first. Mix in cat litter, shredded paper, sawdust or paint hardener. Once paint no longer flows, leave the lid off the can, bag it and place it in your regular garbage.

Light Bulbs and Fluorescent Tubes

Visit www.lightrecycle.org for CFL, HID and Fluorescent Tube Recycling Locations.

Large Appliances

Refrigerators, freezers, dishwashers, clothes washers, dryers, stoves, ranges, furnaces, etc.*

Sell, donate or give away

*Washers, dryers, stoves, ranges, dishwashers, microwaves and hot water tanks (that are 85% metal or more), may be recycled at the Snohomish County transfer stations. Appliances such as refrigerators, freezers, air conditioners, heat pumps and dehumidifiers contain chlorofluorocarbons (CFCs), which are regulated under the Federal Clean Air Act, and must be disposed of properly.
